#1 sums up the same excellent features as the coin operated model World Champion 2.0 in a freeplay product and is the second official ITSF model for the international competitions.

30 mm thick medium density fibreboard cabinet, with silver edges. Color: white with ITSF logo, #1 slkscreen printing and official Competition plate with series number.

10 x 10cm square metal legs coated with anti-scratch silver painting. Competition leg levellers for a perfectly flat playfield on all surfaces.

Diameter 16mm high resistance, steel bars treated with anti-rust chromium plating. The increased 3mm thickness allows 50 % more torsion resistance: bars keep a perfect shape after a prolonged use.

19 mm long tubber bumpers instead of springs, with new material for a better shock absorption.

Distancing rubber on the goalkeeper bar maintaining the player within the goal range of action. (fig.1)

The steel roller bearings inside the bearings fixing bars to the cabinet greatly improve the game speed, while reducing the stress for the players' wrists.

Red and blue players in unbreakable plastic material directly moulded onto the bars.

The goalkeeper is able to fully rotate (360 degrees).

Handles in plastic material to with wood inserts for a better grip. (fig.2)

Playing field in non-reflective tempered sanded glass. The silk-screen printed white lines on a green background reproduce the football ground.

Playfield corners sloping down perfectly towards the playfield without creating any step.

Goals in HDP (high density polymer) reinforced with fibreglass and innovating profile moulded to prevent irregular ball trajectories.

Balancing inside goal to absorbe the ball bumps and preventing bouncing off. (fig.3)

Spirit level on both score counter panels. (fig.4)

Easy and quick ball recovery through a ball pocket on each cabinet side.

Competition abacus score counters enabling to mark game sets and goals. (fig.4)

3 competition balls Speed Control Plus supplied.
